

RESIDENTIAL HOUSE-TYPE DOORS

The 7000 insulated Steel Door System features 24 gauge CLAD STEEL that provides strength and security in a vinyl finish that is virtually maintenance free. The patented metal clad jamb system provides an efficient seal against wind and water, cold and heat. Storm doors may be added as an option, or any time later.

Doors

Standard Features

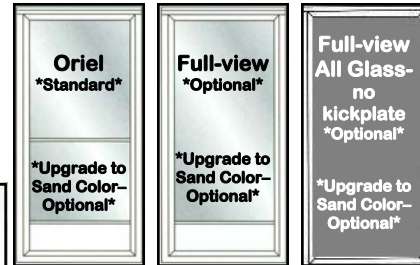

***Patented 4 1/2" aluminum clad LVL jamb system.** ***24-gauge vinyl clad, 1 3/4" white steel 6-panel door core.** ***Thermally broken threshold that can be adapted for surface mounting (recessed entry).** ***Aluminum mounting flange with snap in vinyl flush brick mold for a traditional look.** ***Foam filled vinyl compression seal; jambs and head.** ***Four legged dual door sweep.** ***Snap in brick mold with lap return leg.** ***Lock-side metal blind stop and integral sealing system.** ***All doors are Storm Door Ready.** ***All 7000 Build-Your-Own Doors are edge-bored.**

How to Identify Left or Right Hand
Look at the door from the outside of the home. The side with the hinges determines left or right hand. (Example: hinges on the right, right-hand door)

Note on shipping and handling: Steel House-Type Doors must go by freight unless located within local delivery route area. Costs vary depending on weight and destination. Please contact us for more information.

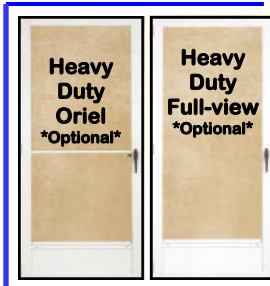

Lockset, putty tape, drip caps and screws sold separately. Please see following page for window options.

5 Storm Door Options

Call Sizes Available for Residential Doors

34" x 76"	34" x 78"
